

# HOW TO MAKE A FLUTTERING BAT

## YOU WILL NEED:

- Black paper
- Scissors
- Pencil/Pen
- Glue Stick
- 1 x Peg
- 1 x Bat Template
- 1 x Tab Template

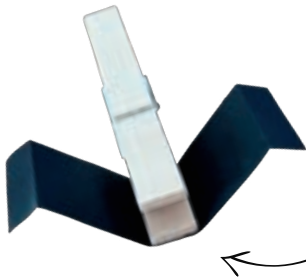

1. Using a pencil, draw around the bat and tab template onto black paper.

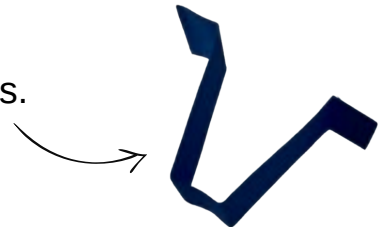

2. Cut the two templates out with scissors - you may need to ask an adult for help!

3. Draw the lines of the tab template on your cut-out piece of black paper.

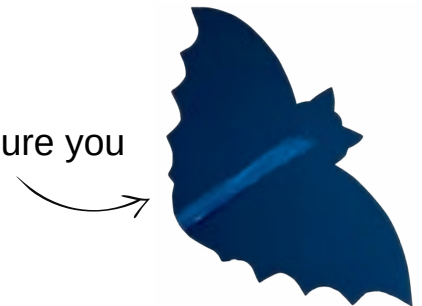

4. Fold along the lines on the tab to make a U-shape like this.

5. Glue the centre of the U- shape and stick it to the opening end of the peg.

6. Glue a small strip in the centre of the cut-out bat. Make sure you only glue up to its neck!

7. Line the top of the peg up with the neck of the bat and stick it down.

8. Glue the two remaining tabs and stick them flat onto the back of the bat. Wait a few minutes for the glue to dry!
