

How to draw a riverscape

1.

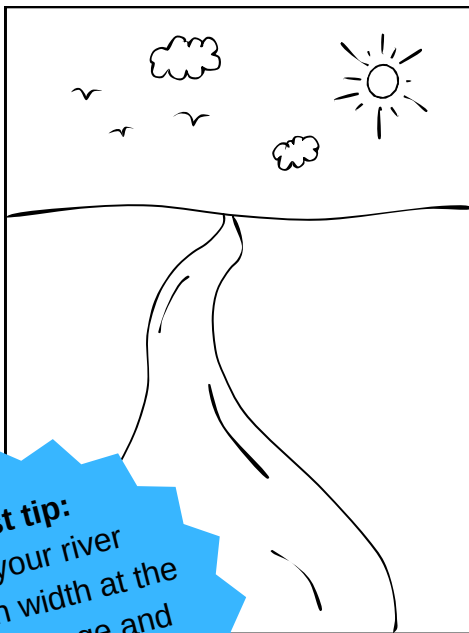

To start your river landscape...

Draw a horizontal line across the top of your piece of paper to create a horizon. Add any sky details - a sun, clouds, birds, aeroplanes?

Artist tip:
Your piece of paper can be portrait or landscape.

Horizon line - where the water appears to touch the sky

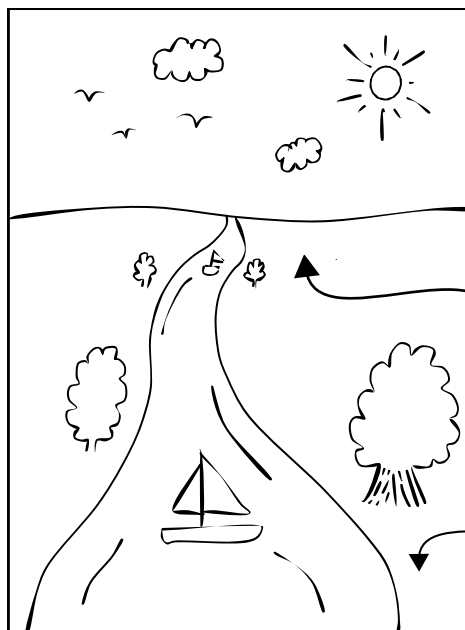

Artist tip:
Draw your river smaller in width at the top of the page and wider at the bottom of the page to create perspective.

2.

Add the river

From the horizon line, draw two wiggly lines all the way to the bottom of the page. Feel free to add water flow lines between them.

Artist tip:
Just like the previous tip, add smaller details to the background and bigger ones in the foreground.

3.

Add details to your riverscape

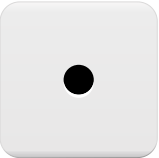

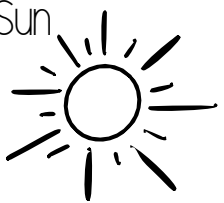

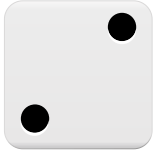

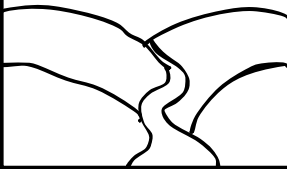

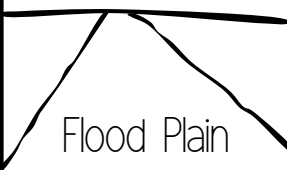

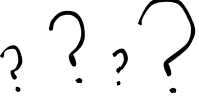

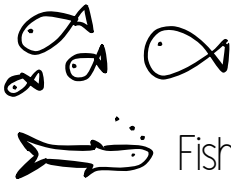

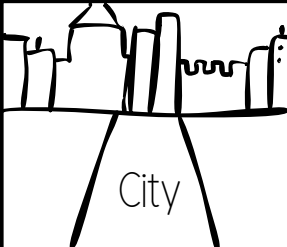

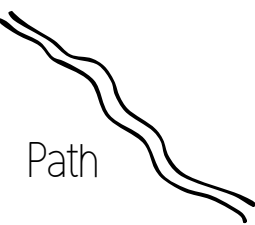

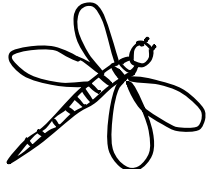

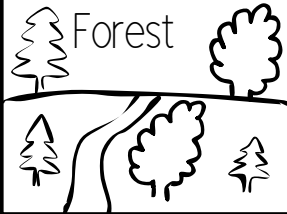

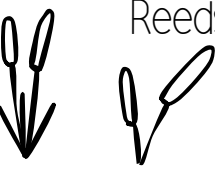

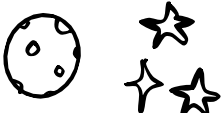

Finish your picture by adding plants and trees, boats, animals and any other details you like.
